

THE MAROONDAH EXCHANGE

A calm, useful guide to what's happening locally

SEPTEMBER 2026

FREE EVENTS GUIDE

Local events, organised by category and date.

More than 200 event dates and sessions across Maroondah and surrounding suburbs.

A local guide, made to be useful

Welcome

There is more happening locally than most people realise, but useful information is often spread across different websites, venues and booking pages. This guide brings free events, activities and learning opportunities together so it is easier to find something worthwhile nearby.

We have organised the listings by category and date, with links back to current organiser information. My hope is that it saves you some searching and helps you discover something you might otherwise have missed.

MX is built around a simple idea: make local activity easier to see and useful information easier to act on. Details can change after publication, so please check the current event page before attending. If you spot a correction, know about a useful local event, or organise something that should be included next time, I would be glad to hear from you.
